

First make three white balls. Make sure that the one on the bottom is the biggest. The one in the middle is a little smaller and the top one is the smallest. The face on the snowman first has black sunglasses. Now the nose is a little caret under the sunglasses then has a black smile. They arms of the snowman are long and brown. There are three fingers on the arms now here is the hard part on the right side there is one finger on the top. After that put the other arm on the bottom of the top arm (leave a space in-between).Next put the last finger on the other side any wear you want. On the other arm also put one of the fingers on the top and like the other arm put one of the fingers on the other side wear ever you want. Next for the last finger make the last finger by the first finger. Now time for the buttons just make them the exact same size. Then make them in a straight line downward. Now last but not least the scarf which is just green.
